

Download Club Car Gas Golf Cart Repair Manual

Gas Club Car - Gas DS, and Precedent golf cars
The manual for my ClubCar golf cart says to use 80-90 wt API Class GL-3 or 80-90 wt AGMA Class 5 EP Gear lube for use in the drive unit and transmission.
i have a gas powered 9 hp club car. the battery is getting bad. when i bought it it had a lawn mower battery in it. i cant find any one who can tell me what battery goes in my cart. how can i find out what the right battery is. i have looked at after market batteries but the air box /choke system seems to get in the way of putting a very big battery in it.
to train you in the knowledge, skills, and techniques necessary to properly maintain the Club's golf cart fleet;
