

Download Ford Manual Transmission History

The Ford MTX-75 (Manual TransaXle), is a 5-speed transmission developed by Ford Motor Company for its larger-engined front wheel drive models. "75" refers to the distance in millimeters between the main and lay shafts.. Debuting in 1992, the transmission was developed in tandem with the Zetec family of engines. The transmission is optimised for transferring larger levels of torque than the ...The Ford PowerShift is a six-speed dual clutch semi-automatic transmission produced by the Ford Motor Company. The Ford PowerShift gearboxes are built by Getrag Ford Transmissions, a joint-venture with Getrag. PowerShift improves fuel efficiency by as much as 10 percent when compared to a conventional automatic transmission.. The operation of a dual clutch transmission is analogous to two ...When the Arab Oil Embargo unfolded during the winter of 1973–1974, it was a rude awakening for spoiled American motorists. Large-displacement carbureted V-8s, heavy automobiles, and 2- and 3-speed straight-drive automatics came with a price at the pump. Another Granny-Gear transmission. These transmissions were installed in many 1965-1985 Ford pickups (as well as Jeeps and IH Scouts) as a successor to the T98.
